

JORDAN AVERY

Leeds | jordan@example.com | cueful.bio/jordan-builds

No street address on purpose - see the note at the end.

EDUCATION

BSc Computer Science - Meridian University

Sep 2023 - present

Distributed systems, compilers, HCI. On track for a first.

EXPERIENCE

Software Engineering Intern - Northgate Labs

Jun 2025 - Sep 2025

Rebuilt the booking form and cut drop-off by a third.

In production by week six.

Peer tutor, second-year algorithms - Meridian University

Oct 2024 - present

Weekly sessions for around twenty students.

PROJECTS

Timetable clash finder

Enrolment let you pick clashing modules and told you in October.

Built the checker; about 300 students used it this year.

SKILLS

TypeScript, Python, React, PostgreSQL, distributed systems

This is a sample CV for the Cueful student demo. Nobody here is real.

The street address is left off deliberately: a CV behind a public link is readable by anyone who can open the page, and a black box drawn over an address does not remove the text underneath it.
